

## Rebate Eligibility Made Easy: Up to \$8,000 Available

The California Home Energy Efficiency Rebate Act (HEEHRA) offers substantial rebates for installing ENERGY STAR-certified heat pumps, helping homeowners improve energy efficiency and save on energy bills. Use this guide to determine if your household qualifies based on income.

### Do you qualify?

#### Income Levels

Eligibility is determined based on your household's income compared to the Area Median Income (AMI):

**\$8K**

#### Low-Income Household

Rebate Amount: **\$8,000**

Eligibility: Income at or below **80% of AMI**

**\$4K**

#### Moderate-Income Household

Rebate Amount: **\$4,000**

Eligibility: Income between **80% and 150% of AMI**

### How do you check your eligibility?

- Visit the [Income Verification Guide](#) to find the AMI for your area
- Compare your household income to these thresholds to determine if you qualify
- [Categorical Eligibility](#) – Residents can submit proof of enrollment in another qualifying program such as SNAP, WIC, LIHEAP, or LIWP

### What documents will you need?

#### To verify your income, you may need to provide:

- Recent tax returns (Form 1040) or proof of public assistance program
- Proof of residence (utility bills, lease agreements, etc.)

### Get Started Today

#### Partner With Us

- As a HEEHRA approved contractor, we'll guide you through the rebate process from start to finish
- Access exclusive resources and support to streamline installations

#### Verify Your Income

- Use the HEEHRA Rebates Verification Portal to check your income eligibility or ask us for help
- Confirm your household meets rebate income thresholds

#### Upgrade Your Home

- Install a qualifying ENERGY STAR-certified heat pump and start saving!
